

QUARKS : SCI – TECH – GEN QUIZ

Once the atom was divided and subatomic particles were found scientists barely ever gave something smaller to exist a chance. But then we discovered *Quarks*, and science as we know it changed forever.

What this means is that humans have always grown by challenging the known and the unknown, and expanding the boundaries of knowledge. Diving into the realm of the unknown, we have uncovered the most riveting Quiz of all time, *QUARKS*. Named on some of the smallest particles to exist, it is ironic that Quizzing doesn't get any bigger than this. To make things even more electrifying, we have called upon one of the best Quizmasters in the country and abroad, *Mr. Somnath Chanda*. His vast experience and wealth of knowledge is set to raise the bar. Can you jump over it? Or will you fumble? Come to IEM, Management House on the *9th of March*, 2019 at *12:00 pm* to find out.

Entry fees: Rs.120/- per head for people registering before 8th March, 2019

Rs.150/- per head for On-Spot Registration.

Teams of maximum *three* members

Exciting prizes to be won
